- ▶ Superior quality
- ▶ Reasonable prices

INDUSTRIAL HOT AIR OVEN

KSS 070

We offer a wide range of Industrial Hot Air Oven to meet the requirements of our customers. The inner walls are made of stainless steel and outer walls of mild steel sheet, duly powder coated for striking appearance. The Heaters are placed in ribs at the bottom that are made of high-quality chrome wire and finest ceramic beads. Two perforated stainless steel shelves adjustable at any level are provided for keeping the samples. The optional air circulation system keeps the temperature in the inner chamber uniform and consistent.

FEATURES:

- ▶ Double walled insulation
- ▶ Conserves energy
- ▶ Temperature range - from ambient to 400° C

HUMIDITY CHAMBER

KSS 071

We are an emerging company known for providing Humidity Chambers to the clients. This product is designed and manufactured using superior grade components and modern technology by our skilled professionals. Humidity Cabinet is highly necessary in laboratories to maintain the temperature and humidity level of explosive substances.

FEATURES:

- ▶ Automatically controlled
- ▶ Maintain both humidity and temperature
- ▶ Non corrosive

BOD INCUBATOR

KSS 072

With our vast industrial experience, we are serving a wide range of BOD Incubator in the industry. Our BOD Incubator has long serving life and gives pleasant performance to the user. They are dimensionally accurate in every aspect. They are defect less and stringently tested on different quality parameters by our team of experts. We are committed for the time bound delivery at any part of the country.

FEATURES:

- ▶ Low maintenance
- ▶ Efficient working
- ▶ Highly demanded

ORBITAL SHAVER

KSS 073

Orbital shaking incubators are specially designed to have combined advantage of a closely controlled incubation/storage temperature with orbital shaking system necessary for many laboratory procedures. The outer chamber is made up of mild steel sheet duly painted and inner chamber of stainless steel sheet. The unit is fitted with fluorescent tubes the unit has a temperature range 5°C to 60°C and is controlled by digital temperature controller cum indicator with an accuracy of 0.5°C. When the lights are ON temperature range is 10°C to 50°C. The shaker has variable speed and any one platform containing of 250 ml 16 flasks.

FEATURES:

- ▶ Digital speed meter
- ▶ Air circulating fan maintains temperature uniformity throughout
- ▶ Glass door window to inspect the specimen without disturbing the inner temperature

DEEP FREEZER

KSS 074

With our vast industry experience we offer a wide range of Deep Freezers that meets the industrial standards to our valuable clients. Refrigerant system consists of compressor, air cooled condenser and heavy duty motor driven fan are provided in the instrument.

Temperature Range: 5°C above ambient to 60°C ± 2°

FEATURES:

- ▶ Stainless steel inner chamber
- ▶ Outer chamber – powder coated finish
- ▶ Digital temperature controller
- ▶ Door operated illumination lamp
- ▶ PUF insulation
- ▶ Evaporating coils
- ▶ Double walled door

REMI CENTRIFUGE

KSS 075

Focusing on the quality of the products, we are engaged in offering REMI Centrifuges to our valued customers. The product is manufactured using premium quality components and modern technology complying with the industry standards.

FEATURES:

- ▶ Vibration free and balanced
- ▶ Suitable for routine sample analysis
- ▶ Comes along with 4 x 15 ml capacity swing out rotor head and glass tubes
- ▶ 5 step speed regulator

AUTOCLAVE – VERTICAL

KSS 076

Customers prefer to purchase quality products and so we are involved in offering a wide array of Autoclaves. The offered Autoclave is extensively used for sterilizing the steam. Further, the offered products are available in vertical and horizontal models as per the client's specific requirements.

FEATURES:

- ▶ Effective performance
- ▶ Easy installation
- ▶ Cost effective

PHYSIOTHERAPY EQUIPMENTS

We offer our prestigious clients a range of quality Physiotherapy Equipments such as IFT Machine, TENS unit, Ultrasound Therapy Equipment, Laser Therapy Equipment, Combo Therapy Unit and many more equipments.

IFT MACHINE

KSS 077

We are Leading Suppliers of Interferential Therapy Machine. It is an advanced interferential therapy equipment in the field of electrotherapy. The large LCD screen clearly displays all the available types of current and therapy. The corresponding parameters are easily set with five soft touch keys. Users can store their settings in user memory locations and easily recall their programme for their patients.

FEATURES:

- ▶ International standards
- ▶ Light weight and compact design
- ▶ Simple Operation
- ▶ Pre-programmed memory & User settable memory
- ▶ Built in re-chargeable battery (optional)

ULTRASOUND THERAPY EQUIPMENT

KSS 079

We are leading supplier & trader of Ultrasound Therapy Equipment 1 MHZ. Our range is in high demand and caters to various medical centers. It has the feature for easy selection of continuous and pulsed modes.

FEATURES:

- ▶ Pre-programmed
- ▶ User settable memory
- ▶ Water resistant transducer
- ▶ Lightweight and compact design
- ▶ Soft touch key

TENS

KSS 078

We are Leading Supplier & Trader of TENS Unit. Our product offers a unique design with manual and 20 pre programs. Soft touch keys for selection of programs and built in battery with 10 hrs backup. Used for both fitness and therapeutic purpose.

FEATURES:

- ▶ Micro controller based circuitry
- ▶ Manual cum preprogram facility
- ▶ Obesity Programs
- ▶ Universal Input: 110 - 220 V AC
- ▶ Built in re-chargeable battery with 10 hrs backup

LASER THERAPY EQUIPMENT

KSS 080

Based on the skills of our adroit professionals and creative workers, we bring forth an extensive range of Laser Therapy Equipment. Our offered products are developed and designed at our in-house manufacturing unit with the aid of sophisticated machinery and technology. Further, this range is developed in adherence with the industry set guidelines. Moreover, our clients can avail this range from us at market leading prices.

FEATURES:

- ▶ 100 user memory
- ▶ Compact size
- ▶ Easy operation

COMPUTERIZED LASER THERAPY EQUIPMENT

KSS 081

Owing to our state-of-art manufacturing unit and the usage of leading cutting-edge technology, we are able to present a comprehensive range of Computerized Laser Therapy Equipment. The offered array of products is precisely fabricated utilizing the best quality raw material and the ultra-modern techniques by our skilled personnel according to the set industry parameters. Moreover, our clients can avail this range from us at market leading prices.

FEATURES:

- ▶ Automatic calculation of joules & power
- ▶ Large graphic LCD display
- ▶ Light weight and easy to operate

INTERFERENTIAL THERAPY UNIT

KSS 082

Riding on unfathomable volumes of industrial expertise, we are offering an excellent range of Interferential Therapy Unit. This therapy unit is designed by our professionals with latest technology and optimum quality raw material. It is tested before the delivery by our quality checkers to ensure it from any kind of defect. Our valuable clients can avail this therapy unit from us in different specifications at market leading rates.

FEATURES:

- ▶ Excellent capacity
- ▶ High quality
- ▶ Optimally finished

COMBO THERAPY UNIT

KSS 083

Our reputation in the market is largely attributable to our precision-designed Combo Therapy Unit. This unit is designed in compliance with international standards using high quality raw material. Offered unit is tested on various parameters to ensure their quality and functionality. This unit is perfect in all aspects and fulfills the specific needs of hospitals. We offer this unit to the clients at very reasonable price range.

FEATURES:

- ▶ Intricately finished
- ▶ Enhanced durability
- ▶ Unmatched quality

INTERFERENTIAL THERAPY EQUIPMENTS

KSS 084

We are providing a wide range of Interferential Therapy Equipments to our clients at a reasonable market price. In the development of the unit, simplicity of operation and functionality were the principal consideration. All the available types of current and therapy are clearly displayed on a large LCD screen. The corresponding parameters are easily set with five soft touch keys.

FEATURES:

- ▶ International standards and specifications
- ▶ Pre-programmed memory
- ▶ Cable and electrodes checking mode
- ▶ User settable memory
- ▶ Light weight and compact design
- ▶ Easy to operate
- ▶ Future upgrade without change in hardware
- ▶ Built in re-chargeable battery (optional)

VACUUM THERAPY MACHINE

KSS 085

We are Leading Supplier & Trader of Vacuum Therapy Machine. It is an advanced computerized vacuum therapy unit with continuous and pulsed outputs.

FEATURES:

- ▶ Continuous and pulsed outputs
- ▶ Variable pulse speed
- ▶ Easy fixing of vacuum electrodes
- ▶ Light weight and compact design
- ▶ Adjustable vacuum pressure
- ▶ International standards and specifications
- ▶ Low noise

ULTRASOUND COMBO UNIT

KSS 086

We are leading Suppliers & Traders of Ultrasound Combo Unit. We offer a combination of interferential and ultrasound therapy unit. It is designed to use IFT & USD separately or combined both. It is very effective in sports medical treatments. Micro controller based timer will cut off automatically after the treatment time and gives audio sound. It meets international standards and specifications.

FEATURES:

- ▶ Ultra sound
- ▶ Frequency 1 MHz
- ▶ Therapy Modes Continuous/Pulsed
- ▶ Pulse Frequency/Duration 100 Hz/1.2 m sec
- ▶ Timer

LONG WAVE DIATHERMY

KSS 087

We are leading Supplier & Trader of Long Wave Diathermy. It is a computerized, user friendly product. Long wave Diathermy treatment is based on the capacitor field method. It can work in heavy voltage fluctuation. Long wave can be used as an alternative for Shortwave Diathermy Applications.

FEATURES:

- ▶ Microcontroller Based
- ▶ Large LCD Display
- ▶ Portable and Light Weight
- ▶ Comes with three different size applicators

SHORTWAVE DIATHERMY UNIT

KSS 088

We offer Shortwave Diathermy Equipment in 250 and 500 Watts specifications. It is manufactured using cutting edge technology as per international standards. The shortwave diathermy therapy unit is known amongst our clients for their flawless quality and superior performance.

FEATURES:

- ▶ Maintenance free
- ▶ User friendly
- ▶ Equipped with digital timer that automatically cuts off after the treatment time

PHYSICAL THERAPY

We are Leading Supplier and Trader of Physical Therapy Items such as CP Chair, CP Walker, Trampoline, Tilt Table, Standing Frame, Gym Exercise Ball, Fit Band and many more items.

CP CHAIR

KSS 089

With the help of our professionals, we have been able to provide an extensive array of C P Chair. This Chair is available in various designs and sizes. Also, we test the C P Chair for various defects on the basis of set industrial quality parameters. Our C P Chair is highly comfortable to sit due to which its demand is rapidly increasing.

FEATURES:

- ▶ Easy to handle and maintain
- ▶ Durability
- ▶ High performance

CP WALKER

KSS 090

We are engaged in manufacturing Cerebral Palsy (CP) Walker for children. Our products are built with first-quality materials. These are featured with gripped handles, wider supporting legs, soft coated hip supporters and adjustable knobs etc. Walker functions as supportive legs for disabled children to improve their walking practice.

FEATURES:

- ▶ Used for 3 to 12 years old cerebral palsy child
- ▶ Hip supporter
- ▶ Height adjustable

TRAMPOLINE

KSS 091

We are engaged in offering a wide array of Trampolines to our patrons. Customers can avail the Trampolines from us as per their needs as these are known for their high grade quality. Moreover, we offer Trampolines to our customers at industry leading prices.

FEATURES:

- ▶ Shear strength
- ▶ Rugged design
- ▶ Reliable operation

TILTING TABLE

KSS 092

Matching the requirements of the customers, we are involved in offering utmost quality of Tilting Tables. The offered automatic tilt table is extensively used to diagnose dysautonomia or syncope moreover, these products are available in market in different sizes and known for their longer shelf life.

FEATURES:

- ▶ We Used high Quality 24 volt D C motor Drive with Remote Control
- ▶ Bed Size: 78 inches length, 24 inches breadth
- ▶ Height: 29 inches
- ▶ 0 to 90° tilting facility

STANDING FRAME

KSS 093

Having years of experience and knowledge, we are presenting an extensive range of Standing Frame. Our standing frame is manufactured according to the latest trend of the market. Also, this standing frame requires less maintenance and it is highly appreciated by customers.

FEATURES:

- ▶ Fine polished seat
- ▶ Fitness centers
- ▶ Frame height adjustable

GYM EXERCISE BALL

KSS 094

Being pioneers in the industry, we are engaged in presenting an exclusive array of Gym Exercise Ball. Our Gym Exercise Ball is sturdily constructed by us according to the set international standards. The parallel bar is rust proof and flexible in design which is highly appreciated by customers.

FEATURES:

- ▶ Accurate dimensions
- ▶ Strong construction
- ▶ Durability

FIT BAND

KSS 095

Fit Band, also known as latex resistance bands provide an ideal way of increasing strength, stamina and co-ordination safely without placing too much strain on a joint, through resistance training. We offer a range of latex fit bands, which you will find are ideal for resistance training.

SHOULDER PULLEY

KSS 096

Leveraging on the skills of our professionals, we are involved in offering a wide array of Shoulder Pulley. The offered shoulder pulley is extensively used in various suitable domestic and commercial applications. Further, the offered shoulder pulley is highly durable in nature and easy to use.

FEATURES:

- ▶ Precision designed
- ▶ Portable
- ▶ Require less space

BALANCE BOARD

KSS 097

Based on advanced technology, we are involved in offering best quality of Balance Board. The offered balance board is extensively used for recreation, balance training, athletic training, brain development, therapy, musical training and in many other suitable applications. Our products are of world class quality.

FEATURES:

- ▶ Durability
- ▶ Sturdy construction
- ▶ Wide range of Balance

MANIKINS

Leveraging on the skills of our professionals, we are involved in offering our clients a wide array of manikins as per their specific requirements.

FULL FUNCTION MANIKINS

KSS 098

Our in-depth knowledge and industrial expertise enable us to offer a distinguished range of Fully Functional Manikin. This manikin is manufactured by our experienced professional from high grade raw material and cutting edge technology as per the set industry norms. To meet the varied needs of the clients, we offer manikin in different specifications and can be availed in bulk quantities within stipulated time-frame by our valuable clients.

FEATURES:

- ▶ Sturdy
- ▶ Long life
- ▶ Fine finish

ADVANCED NURSING WOUND CARE UNISEX MANIKINS

KSS 099

With years of experience in this domain, we have carved a niche for ourselves, in offering a wide assortment of Advance Nursing Training Wound Care Unisex Manikin. Designed and crafted by a skilled team of professionals using high grade material, this product is highly demanded in the global market. Clients can avail our offered product in various technical specifications and can be customized as per exact information laid down by our renowned clients.

FEATURES:

- ▶ Solid
- ▶ Movable joint
- ▶ Easy to use

MULTI FUNCTIONAL MANIKINS

KSS 100

By utilizing skills of our dexterous workforce, we are offering a comprehensive assortment of Multi-Functional Manikin. This manikin is manufactured in line with international standards utilizing supreme class base material under the supervision of skilled professionals. In order to ensure quality, it is stringently tested on various predefined set industrial standard. We offer this manikin in different specifications and can be customized in order to meet the diverse demands of the client's at most affordable price.

FEATURES:

- ▶ Maintenance free
- ▶ Long lasting
- ▶ Smooth texture

CPR MANIKINS

KSS 101

As an esteemed name in the relevant industry, we are offering a precision-engineered array of CPR Manikins. This manikin is fabricated using high grade material that is procured from reliable sources of the industry as per the current market trends. The offered manikin is available in different colors, designs and sizes as per the needs of the clients and can also be customized as per information provided by our renowned clients.

FEATURES:

- ▶ Sturdy
- ▶ Modern pattern
- ▶ Light weight

MATERNITY MODELS

KSS 102

We are dedicated to continually offering an extensive range of quality assured Maternity Models. These products are best in design and are developed in compliance with international standards high grade quality raw materials and state-of-art machines. Our offered range of maternity models is widely demanded in the market and different hospitals due to their easy use. To meet the specific requirements of our clients, we offer our products ranges with diverse specifications.

BENEFITS:

- ▶ Market leading prices
- ▶ Unmatched quality
- ▶ Precisely designed

ADVANCED DELIVERY SIMULATION

KSS 103

By utilizing skills of our dexterous workforce, we are offering an extensive assortment of Advanced Delivery Simulation Manikins. Our offered range of products is widely demanded in the market and different hospitals due to their easy use.

FEATURES:

- ▶ Demonstrate the whole process of delivery
- ▶ Demonstrate the fetus, umbilical cord and placenta of vacuum-assisted delivery, flexible fetal joint and multiple normal and abnormal positions of fetal delivery can be showed
- ▶ Can practice and master the comprehensive skills of normal labor, abnormal labor, midwifery and perineum protection
- ▶ Available training of multiple pregnancies (twin pregnancy)

NEW BORN BABY MODELS **KSS 104**

Our in-depth knowledge and experience in this domain enables us to offer a range of New Born Baby Models. It is a lifelike manikin that simulates babies up to the age of one year. It was developed to provide effective infant CPR training without compromising realism or quality.

FEATURES:

- ▶ Oral and nasal passages for realistic mouth-to-nose ventilation
- ▶ Natural obstruction of the airway
- ▶ Head tilt/chin lift and jaw thrust
- ▶ Realistic chest compliance
- ▶ Foreign-body airway obstruction feature
- ▶ Economical disposable airways for quick and easy clean up
- ▶ Removable and reusable faces for convenient and affordable maintenance

HALF BODY CPR MANIKINS **KSS 105**

We offer an extensive range of quality assured Half Body CPR Manikins. This simulation of adult model is designed according to the international CPR manikin standards. This model shows whether the operation is correct or not by light indicator, audio prompting and grade printing. An ideal model for use in Nursing Institutes, Medical Colleges, Hospitals, Schools & other Educational Institutes.

FEATURES:

- ▶ Can perform airway open
- ▶ Can perform artificial breathing and external cardiac compression
- ▶ Can judge inflation volume by chest rise
- ▶ Battery Powered

ARTIFICIAL LIMB **KSS 106**

We are the leading supplier, exporter and distributor of artificial limbs in Chennai. Utilizing the knowledge and experience, we offer a premium range of artificial limbs. The product is designed into various sizes and specifications as per the demands of the client. It is designed and developed under the guidance of our skilled professionals using innovative technology and machinery. Before the final dispatch, it is thoroughly checked on parameter like strength and finishing ruling out the possibility of any defect.

FEATURES:

- ▶ Low profile
- ▶ Light weight
- ▶ Easily removable by the wearer

SKELERON MODELS

KSS 107

Being a well-known organization, we are involved in dealing an extensive range of Skeleton Model to meet the demands of our customers. The complete range of our products is manufactured using premium grade base material sourced from trustable dealers of the industry. These products are offered at nominal rates.

FEATURES:

- ▶ Durable
- ▶ Reliable
- ▶ Affordable

ANATOMY MODELS

KSS 108

Owing to our extensive years of industry experience and profound market understanding, we are providing a wide gamut of Anatomy Models. It is designed with latest techniques & high grade material. Our honored customers can obtain the offered anatomical model in varied modified options as per requirement. Our anatomical model is strictly checked under the vigilance of our experts so that no problem will come with quality during teaching.

BENEFITS:

- ▶ Break resistant
- ▶ Optimum quality
- ▶ Smooth texture

BONE

KSS 109

With the years of experience and vast knowledge, we are engaged in presenting an excellent range of Bone Models to fulfill the demands of our customers. These are excellent for the training students in the medical field. All these products are safe to use. We offer them at reasonable rates.

FEATURES:

- ▶ Sturdy
- ▶ Finely designed
- ▶ Reliable

NEONEST

Based on our advance technological expertise and vast industrial experience, we are involved in offering our clients the best quality of Neonest equipments.

STAND TYPE INFANT RADIANT WARMER

KSS 110

The Stand Type Infant Radiant Warmer that we offer our clients is innovatively designed to meet Thermoregulatory requirements of newborn infants who suffer extreme of heat loss. Microprocessor based Temperature controller system is provided to control the baby body temperature and it has all fault indications with visual alarms.

FEATURES:

- ▶ Large bright displays
- ▶ Feather touch keys
- ▶ LED system to indicate the heater output
- ▶ Manual control system
- ▶ Fault indications with alarm

INFANT RADIANT WARMER WITH DETACHABLE BABY TROLLEY

KSS 111

Infant Radiant Warmer with Detachable Baby Trolley is designed innovatively to meet neonatal care in well run and busy NICU units. The detachable baby trolley can be used along with the warmer and it can be used separately as a baby cradle. Microprocessor based temperature controller system provided to control the baby body temperature and it has all fault indications with visual alarms.

FEATURES:

- ▶ Micro computerized system
- ▶ Double digital display system
- ▶ Easy operation
- ▶ LED indicators
- ▶ Manual control system provided

INFANT RADIANT WARMER WITH ATTACHED BABY TROLLEY

KSS 112

We offer innovatively designed Infant Radiant Warmer with Attached Baby Trolley to meet the requirements of our clients. The system can be used in delivery rooms and neonatal intensive care units. The micro control based servo control system detects minute variations in skin temperature and adjust the ceramic infrared heater output to maintain the infant's temperature at a prescribed pre-set level.

FEATURES:

- ▶ Micro controller based system
- ▶ Bright double digital display system
- ▶ Feather touch keys
- ▶ LED indication system

INFANT RADIANT WARMER WITH OVAL SHAPE BABY TRAY

KSS 113

Infant Radiant Warmer with Oval Shape Baby Tray is innovatively designed to meet Thermoregulatory requirements of newborn infants who suffer extremes of heat loss. An attached oval shape baby tray is convenient to use and the transparent acrylic walls can be slid up and down. Microprocessor based temperature controller system provided to control the baby body temperature.

FEATURES:

- ▶ Micro computerized system
- ▶ Large bright displays
- ▶ Feather touch keys
- ▶ Fault indications with alarm

RESUSCITATION CENTRE

KSS 114

We offer the most sophisticated Resuscitation Centre to our clients. The resuscitation centre is designed taking into account the science of thermal regulation for optimum functionality. It provides radiant warmth and respiratory support to the newborn babies. To provide the most efficient use of heat we select the appropriate wattage, use the best material for heating element and design the reflectors for maximum effectiveness.

FEATURES:

- ▶ Innovatively designed
- ▶ User friendly

INTENSIVE CARE INCUBATOR

KSS 115

Intensive Care Incubator is designed to provide the safest and most stable environment. This Incubator offers the advanced technology and innovative design to meet your most demanding clinical care needs. A digital microprocessor provides permanent check of all important control functions. Built in features ensure proper operation and also gives clear indication of the temperature settings.

FEATURES:

- ▶ Sliding baby tray
- ▶ X-Ray cassette sliding facility
- ▶ Stainless steel rust free heater
- ▶ Blower sub assembly with changeable micro air filters
- ▶ Provision of an open shelf in the trolley
- ▶ Humidity heater and Hygrometer
- ▶ Pole for IV Stand

TRANSPORT BABY INCUBATOR

KSS 116

Transport Baby Incubator is designed to use in case of emergencies when it is necessary to transfer a neonate to another site. This incubator is compatible with incubators and other equipment. The infant bed and the interior of the incubator are very easy to clean. Restraining straps provided, which holds the infant securely during transport. The thermoregulation in this incubator is faster and the complete unit is better isolated from the outside environment. This transport baby incubator is used to transport the infant calmly and quietly.

BABY TROLLEY / CRADLE

KSS 117

We offer a uniquely designed baby trolley that is used in pediatric wards. This baby trolley can be used with infant warmer and phototherapy units. Trolley is fixed with castors for easy mobility.

OXYGEN HOOD

KSS 118

Oxygen hoods are transparent polycarbonate shell that surrounds the baby head. These hoods can be used effectively to avoid direct flow of cold oxygen on baby's face and head. The shell is designed in such a way so that other body parts like chest, stomach etc., can be accessed. The opening is generally softly padded keeping in mind the soft skin of the baby so that they don't hurt themselves. The oxygen hood is available in two sizes.

FEATURES:

- ▶ Single piece round shape made up of Autoclavable polycarbonate material
- ▶ Trauma free silicone neck adjustment flap
- ▶ Bilateral oxygen nozzle to prevent direct flow of cold oxygen on patient's head
- ▶ 2 meter oxygen tubing

PATIENT MONITOR

KSS 119

Patient Monitor is made available with all the latest and advanced features required to monitor the condition of critical patients. Our medical patient monitor incorporates highly integrated module technology for more stable performance. This monitor is small, compact-design, light and can use both alternative current and direct current. It can meet the actual demand of hospital clinic and emergent medical situation.

FEATURES:

- ▶ Compact design
- ▶ LED backlight display
- ▶ Visual and audio alarms
- ▶ Built-in removable and rechargeable lithium battery
- ▶ Touch screen operation

OPEN CARE SYSTEM WITH HALOGEN / LED PHOTOTHERAPY

KSS 120

Open Care System with Halogen / LED Phototherapy is designed to meet and provide the Neonate with an adequate and secure environment for its care. Microprocessor based temperature controller system provided to control the baby body temperature and it has fault indications with visual alarms.

FEATURES:

- ▶ Micro controller based system
- ▶ Large displays
- ▶ Fault indications with alarm
- ▶ Bar graph LED system
- ▶ Electrically driven slow suction provided
- ▶ Pressure can adjustable with regulator
- ▶ Vacuum can be measured with gauge
- ▶ Silicon resuscitator bag and accessories provided

STAND TYPE CFL / LED PHOTOTHERAPY

KSS 121

Stand Type CFL / LED Phototherapy unit is established for the treatment of hyperbilirubinaemia, which greatly reduces the need to resort to costly, relatively complex, exchange transfusion of blood. The CFL lamps give high output of light in the therapeutic range, while the extended spectrum of the white light tubes allow better observation of the infant's skin color while in use. The phototherapy units are mounted on a light weight mobile stand with four castors.

FEATURES:

- ▶ Head tilt
- ▶ Hour timer
- ▶ Height adjustment
- ▶ Medical tubes

DOUBLE SIDED CFL / LED PHOTOTHERAPY

KSS 122

Double Sided CFL / LED Phototherapy unit is established for the treatment of hyperbilirubinaemia. The CFL lamps give high output of light in the therapeutic range, while the extended spectrum of the white light tubes allow better observation of the infant's skin color while in use. The unit is mounted on a light weight mobile stand with castors.

FEATURES:

- ▶ Tilt able Head
- ▶ Height adjustment
- ▶ Hour timer
- ▶ Medical tubes

STAND TYPE FLUORESCENT PHOTOTHERAPY

KSS 123

Stand Type Fluorescent Phototherapy is widely used for the treatment of hyperbilirubinaemia. The fluorescent lamps give high output of light in the therapeutic range and allow better observation of the infant's skin color while in use. The phototherapy units are mounted on a light weight mobile stand with four castors.

FEATURES:

- ▶ Easy to use
- ▶ Tilt able Head
- ▶ Hour timer

DOUBLE SIDED FLUORESCENT PHOTOTHERAPY

KSS 124

Double Sided Fluorescent Phototherapy units are established for the treatment of Neonatal Hyperbilirubinaemia, reducing the need of transfusion of blood. Top and bottom phototherapy with eight medical blue lamps give high output of light in the therapeutic range, while the extended spectrum of the two white lamps allow better observation of the infant's skin colour, while in use.

FEATURES:

- ▶ User friendly
- ▶ Height adjustable
- ▶ Hour timer

SURGICAL INSTRUMENTS

Pioneers in the industry, we offer a wide range of Surgical Instruments that are known for their unique and compact design. Owing to high accuracy, easy maintenance and durability our offered products are highly demanded and appreciated by our clients.

ARTERY FORCEPS

KSS 125

Being the reckoned name in the industry, we provide a wide array of Artery Forceps. Our entire products are designed as per the set quality standards. They are widely used in the industry owing to its reliable performance and high durability. Artery forceps, we offer is processed using advanced methodologies. This product has been priced at very reasonable rates in the market and is available as per our client specification.

FEATURES:

- ▶ Light weight
- ▶ Rigid construction
- ▶ Thrifty prices

SPONGE HOLDER FORCEPS

KSS 126

Focusing on the quality of the products, we are engaged in offering Sponge Holder Forceps. Offered product is designed and manufactured in obedience with the industry standards using premium quality components and modern technology. This product is tested on several parameters by our quality checkers to ensure defect free range. Our clients can avail this product from us at very reasonable rates.

FEATURES:

- ▶ Safe for reuse
- ▶ Corrosion resistance
- ▶ Longer service life

CHEATLE FORCEPS

KSS 127

Taking quality as our prime concern, we offer an exceptional array of Cheatle Forceps. Manufactured using high-grade good quality stainless steel material these products are engineered for precision and provides accuracy and high functionality.

FEATURES:

- ▶ Sharp & smooth finish
- ▶ Rust free
- ▶ Sturdy construction
- ▶ Accurate dimensions

SUTURE REMOVAL SCISSORS

KSS 128

With our vast industrial experience we are serving a wide range of Suture Removal Scissors in the market. Our products have a long service life. They are based on the modern designs and are manufactured using highly advanced machinery and equipments. Our products ranges including suture removal scissors are precisely made at highly developed production unit by the use of superior quality of materials.

FEATURES:

- ▶ Long lasting
- ▶ Sternly tested
- ▶ Modern technology

NEEDLE HOLDER

KSS 129

Owing to years of experience in the industry, we render world-class range of Needle Holder that is acclaimed for its exceptional durability and quality. Our entire products are processed under the supervision of experienced professionals, thereby rendering utmost client satisfaction. Furthermore, we deliver the entire products including needle holder in customized packaging and reasonable pricing.

FEATURES:

- ▶ Long life
- ▶ Reasonable price
- ▶ Quality product

INSTRUMENT TRAY WITH LID

KSS 130

With the aid of modern machinery and technology, we have been able to manufacture, trade and supply Instrument Tray with Lid. This product is designed with high precision using high quality material and latest technology. This product is checked on various quality parameters by our adroit professionals. This product is highly demanded in the industry and is offered at very reasonable rates to the clients.

FEATURES:

- ▶ Highly durable
- ▶ Abrasion resistance
- ▶ Optimum quality

KIDNEY TRAY SS

KSS 131

In series of delivering world-class products, we offer an exceptional array of Kidney Tray in the industry. These products are widely appreciated in the market for their dimensional accuracy and reliability. Our team of highly skilled professionals utilizes the inputs from modernized machines and advanced tools to render highly reliable range of Kidney Tray. Moreover, our valued customers can avail all our products range at reasonable rates.

FEATURES:

- ▶ Thrifty prices
- ▶ Sturdy construction
- ▶ Excellent performance

CUSCO'S SPECULUM

KSS 132

Taking quality as our prime concern, we are engaged in manufacturing, trading and supplying of Cusco's Speculum. Precisely designed using best quality raw material, this product is widely demanded in various hospitals. To meet the set industry quality standard, the offered product is stringently tested on various quality parameters by our experienced professionals. Further, we offer this product in different specifications as per the precise needs of the clients and at most affordable price.

FEATURES:

- ▶ High performance
- ▶ Reliability
- ▶ Extended durability

STERILIZER ELECTRIC

KSS 133

Known in the market as a manufacturer, trader and supplier, we are engaged in offering Hospital Sterilizer. Our professionals use most recent technology and finest quality raw material for manufacturing this excellent quality product. Available in various specifications, this product is also tested by our quality controllers to assure its high performance at client's end and is offered at industry leading price.

FEATURES:

- ▶ Excellent performance
- ▶ Durability
- ▶ Longer functional life
